

## BROCHURE PORTFOLIO

We have selected what we believe to be the finest and most sought-after luxury accommodation products, spanning the **magical safari areas of Africa**. These include premium lodges, camps, hotels and resorts. Please find these listed in the pages that follow. We also showcase some incredible **'Island Escape'** products, located in the warm azure waters of the Indian Ocean, adjacent to Africa. There is arguably no better way to end off an adventure-packed safari than to relax and enjoy one of the best beach locations in the world. You may be new to Africa or simply find yourself in need of some quick inspiration. For this we recommend you browse our **'Africa Travelers Collection'** that are denoted in **bold\*** in the portfolio list or click the link on our website 'Home' page for a detailed overview.

Through our website we directly integrate electronically with the vast majority of our accommodation products. We utilise a highly respected and comprehensive software solution to make this all possible. This way we can bring you the most up-to-date and accurate lodging information, giving you strong peace of mind when working with us to design the best African safari journeys.

There are a small number of properties that are not listed on our website. Some accommodations are still gearing their integration capabilities, or in some cases we do not show individual offerings of an entire brand family. We are constantly updating and improving how we can include the most deserving products. If, at any stage, you do not find what you are looking for please get in touch with us so that we can assist you.

Best wishes from all the team at
